KASU-TC

Model: GBC5447

DISCLAIMER

Dimensions of the sinks may vary slightly from unit to unit. It is the responsibility of the operator to verify the exact dimensions of the sink with the physical template or the Digital DXF File prior to any cutting.

For the most accurate cut, it is strongly recommended to compare the provided template or DXF file directly to the actual sink.

PEARL® / Superprem shall not be held liable for any cutting errors, including but not limited to those resulting from the use of incorrect dimensions in any computational or measurement device. No warranties are given for centrelines or position of template on the countertop.
